The Zuidelijke Land- en Tuinbouworganisatie (commonly known as ZLTO, [www.zlto.nl](http://www.zlto.nl)) is a farmers association in the south part of The Netherlands. It has about 16.000 farmer members. ZLTO services farmers with their everyday farm management and guides farmers towards smart solutions, new business and innovative growth. Always with better welfare and welcare of farmer members at the front and the quality of everyday life in mind.

Mrs. Lemkes-Straver has developed and implements a new strategy and business model at ZLTO, and its corporate venture company NCB Participaties BV. She sets a new entrepreneurial role model in a strong cooperative agrifood cluster. From that perspective she puts farmers at the basis of a new agricultural era!
